

# YOUNESS HERRAKA

## IT Technician | Systems, Networks & IT Support

Agadir, Morocco | younessherraka@gmail.com | linkedin.com/in/youness-herraka

### PROFILE

Specialized technician in Digital Infrastructure, Cloud Computing option, with practical experience in user support, IT maintenance, Windows Server and Linux administration, and LAN/VLAN network management. Skilled in workstation installation and configuration, IT and network incident diagnosis and resolution, and Active Directory. Serious, autonomous and motivated, I want to contribute to the maintenance and improvement of a company's IT infrastructure.

### EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                              |                |

### TECHNICAL PROJECTS

- Setup and management of an Active Directory environment: users, groups, OU and GPO.
- Automated deployment of Windows workstations with WDS and PXE.
- Implementation of OpenStack cloud infrastructures with IaC automation.
- Automation of Microsoft Azure resources: VMs, networks and resource groups with PowerShell.

### TECHNICAL SKILLS

**Support & Maintenance:** Level 1/2 user support, hardware, software and network incident diagnosis, workstation installation and configuration, preventive and corrective maintenance.

**Office tools:** Microsoft Word, Excel, PowerPoint and Outlook.

**Systems:** Windows Server and Linux administration, users and permissions, Active Directory, WDS and PXE.

**Networks:** LAN/VLAN, IP addressing, subnetting, routing, network security, CCNA fundamentals.

**Cloud & Automation:** Azure, OpenStack, AWS, PowerShell, Python, Bash, IaC, Ansible, Heat.

**Programming languages:** Python, C, JavaScript.

### CERTIFICATIONS & BADGES

Microsoft: Azure AI Fundamentals | Microsoft Security Fundamentals

Cisco: CCNA 1, 2, 3 | Python Essentials 1 & 2

LinkedIn Learning: Become a Microsoft Azure Administrator pathway

AWS Cloud Quest: Cloud Practitioner
